

For the RN Thinking about Returning to Direct Patient Care

Refresher courses are available for Registered Nurses re-entering clinical nursing practice. The continuing education re-fresher courses provide theoretical and clinical practice content plus skills necessary for employment. Many hospitals cover the cost of the refresher program if you agree to work in their hospital after you complete the program. Most courses are from 6 weeks to 2 months in length and generally include full day or evening clinicals. As a start in investigating getting back into the nursing patient care workforce, check out the following web sites.

Brookdale Community College

765 Newman Springs Road
Lincroft, NJ 07738
732-224-2345
