STATEMENT

9

10 This bill requires registered professional nurses (RNs) who are
11 initially licensed by the New Jersey Board of Nursing, on or after
12 the effective date of the bill, to attain a baccalaureate degree in
13 nursing within 10 years of their initial licensure. The bill authorizes
14 a licensee who is not able to attain the degree within a 10-year
15 period to request a one-time (up to two-year) extension of the
16 requirement in order to complete the degree.

17 The purpose of this bill to encourage newly-licensed RNs to
18 advance their education in order to deliver the best quality care to
19 their patients in an increasingly complex health care environment.
20 Studies comparing patient outcomes with the educational
21 background of nurses demonstrate that in hospitals with higher
22 proportions of nurses educated at the baccalaureate level or higher,
23 surgical patients experienced lower mortality and failure-to-rescue
24 rates.

25 Under the provisions of this bill, RNs will continue to be able to
26 enter the nursing profession through associate degree and diploma
27 nursing programs. These new nurses will then have 10 years to
28 advance their professional education and complete a baccalaureate
29 degree in nursing. The requirements of the bill will not affect
30 nurses who received their nursing license prior to the effective date
31 of the bill, although it is the sponsor's intent that currently licensed
32 nurses also seek to advance their education and training.

33 The bill also deletes obsolete language concerning licensure fees
34 and duration of licenses, which is now provided for in chapter 1 of
35 Title 45 of the Revised Statutes.
